Advanced Cleaning Chemistry™

EnviroCling

CLASSIFICATION:

- RTU clinging ink / dye remover and baseboard stripper

PACKAGING:

Jug	Pail	Drum
4L	*20L*	*210L*

DESCRIPTION:

- **EnviroCling** is a powerful cleaner specifically formulated to remove inks, dyes and polymer films from a wide variety of surfaces.
- **EnviroCling** is an excellent non-aerosol baseboard stripper.
- **EnviroCling** is sprayable from a trigger sprayer, yet thickens upon hitting the surface, providing excellent vertical cling.
- **EnviroCling** is a non-caustic, non-corrosive, very low odour product.

CHEMICAL AND PHYSICAL PROPERTIES:

• Appearance	White opaque liquid
• Odour	Very low odour
• pH, Concentrate	8.5 – 9.5
• Specific Gravity	1.02

USE DIRECTIONS:

1. Use in undiluted form.
2. Although the product is thick, it will thin when stressed during spray to provide good spray coverage. Spray evenly onto surface and allow to sit 5 minutes or as long as necessary to achieve soil removal. The product will thicken on contact and remain intact and wet.
3. Scrub as necessary. Wipe off and rinse as necessary. For food contact surfaces, rinse well with potable water.

See Material Safety Data Sheet for proper handling and safety instructions.
