

Odour Master 300

CLASSIFICATION:

- Liquid odour counteractant

PACKAGING:

Jug	Pail	Drum
4L	20L	210L

DESCRIPTION:

- **Odour Master 300** is a powerful odour counteractant, eliminating a wide variety of malodours. **Odour Master 300** is not a masking agent, which simply overpowers malodours.
- **Odour Master 300** may be used as a light duty cleaner, a surface or space spray, or as an odour counteractant boost to non-germicidal hard surface and carpet cleaning products.
- **Odour Master 300** leaves behind a residual herbal mint scent.
- **Odour Master 300** is not flammable or combustible (concentrate or diluted form)

CHEMICAL AND PHYSICAL PROPERTIES:

- Appearance: Clear turquoise liquid
- Odour: Herbal Mint
- pH, Concentrate: 7.5 – 8.5
- pH, 1:10: 7.0 – 8.0
- Specific Gravity: 1.01
- Viscosity: Less than 20 cps

USE DIRECTIONS:

- Dilution: Prepare use solutions of **Odour Master 300** in water.

Application	Dilution	mL/L
Heavy Duty Odour Control	Full Strength	Full Strength
Medium Duty Odour Control	1:10	100

- **Trigger Sprayer Space and Surface Odour Control:** Mix at medium concentrations listed above. Spray and wipe if applied to hard surfaces.
- **Odour Control Boost for Non-Germicidal Products:** Add 10 mL of **Odour Master 300** per litre of diluted product (1:100 with diluted product).
- **Heavy Duty Odour Control:** Use **Odour Master 300** at full strength for urinals, dumpsters, portable toilets, trash rooms and other environments requiring maximum odour counteraction.

See Material Safety Data Sheet for proper handling and safety instructions.
